

List of subsidized agricultural equipment

No	Function of equipment	Machinery and technological equipment
1.	Tractor and excavator (Two-wheel and Caterpillar)	1.1. General-purpose farm tractor 1.2. Special purpose farm tractor 1.3. Universal cultivating tractor 1.4. Mini tractor 1.5. Backhoe loader
2.	Soil preparation and cultivation equipment	2.1. Plough 2.2. Reaper 2.3. Cultivator 2.4. Harrow 2.5. Stone cleaning or stone crunching machine 2.6. Hole digger machine 2.7. Crop residues crunching machine 2.8. Channel-irrigation furrow opening machine 2.9. Block making machine 2.10. Equipment used in dry or wet trimming of crowns of perennial fruit, berries and tea plants
3.	Sowing and planting equipment	3.1. Seeding machine 3.2. Combined seeding unit 3.3. Seedling planting machine 3.4. Potato planting machine 3.5. Fruit seedling planting machine and trailer 3.6. Seedling Conveyor
4.	Harvesting equipment, machinery and trailers	4.1. Cereal combine harvester and header 4.2. Cotton picker, machine and trailer 4.3. Sugar beet combine harvester, machine and trailer 4.4. Potato harvester, machine and trailer 4.5. Vegetable harvesting combine, machine and trailer 4.6. Combined harvester used in orcharding (platform) 4.7. Equipment used to harvest and collect the surface mass of plants 4.8. Tractor trailer 4.9. Special purpose trailer (animal carrier, medicines and fertilizer carrier, roll press carrier, multi purpose tanks)
5.	Fertilizer spreading and preparing machines, equipment and trailers	5.1. Solid mineral and organic fertilizer spreader 5.2. Liquid mineral and organic fertilizer spreader 5.3. Organic fertilizer preparing machine and equipment

6.	Plant protection machinery and equipment	6.1. Sprinkler 6.2. Pollination machine 6.3. Seed sprayer with disinfectants
7.	Irrigation systems sets and equipment	7.1. Center pivot irrigation system 7.2. Drip and rainfed irrigation system 7.3. Drum irrigation system
8.	Primary processing equipment	8.1. Grain loader 8.2. Seed drying equipment 8.3. Shelled fruit cleaning machine 8.4. Machine for cleaning, sorting and calibrating of crops and seeds 8.5. Machinery, equipment and devices for drying fruits, tobacco, tea and other agricultural products
9.	Equipment, machinery, units and devices used in livestock and poultry farming	9.1. Milking equipment and units 9.2. Sheep shearing units 9.3. Organic fertilizer separators 9.4. Organic waste treatment equipment for farm 9.5. Scratching brush 9.6. Animal keeping unit and equipment 9.7. Bird cages 9.8. Incubator sets
10.	Machinery and equipment used in feed production and supply and feeding process	10.1. Mower combine and machine 10.2. Combine and trailers used for the production of haylage and silage 10.3. Rake 10.4. Machine for harvesting-pressing and covering press with polyethylene coating 10.5. Loader 10.6. Hay spreader and straw mixing equipment with side harrow 10.7. Hanging, joining, and self-propelled crusher, mixer and distributor 10.8. Fodder producing technological equipment
11.	Innovative equipment and technological equipment	11.1. Agricultural drones, robotics and smart technological equipment 11.2. Innovative agricultural equipment and technological machinery used in the projects of the Ministry of Agriculture

12.	Equipment used for storage of agricultural products	12.1. Refrigerator storage for fruit and vegetable and potatoes 12.2. Technological equipment for refrigerator storage 12.3. Equipment and refrigerators for keeping of animal products
